- dermatologically tested
- Made with love in Germany

BIOglide® with Carrageenan, comparatively tested in vitro, has shown to be a highly potent HPV inhibitor in an HPV16 PsV inhibition assay.
Buck CB, Thompson CD, Roberts JN, Müller M, Lowy DR, et al. (2006) Carrageenan is a potent inhibitor of papillomavirus infection. PLoS Pathog 2(7): e69. DOI: 10.1371/journal.ppat.0020069

Carrageenan is a plant-based negatively charged gelling agent and thickener derived from red algae. As an ingredient in BIOglide® Safe, it can reduce the risk of an HPV infection by binding to the positively charged virus surface. The bound viruses are not able to attach to the HPSG proteins on the basal cell membrane. Like this, the infection mechanism is interrupted by Carrageenan.

SAFE GUARD

X2 - the pioneer

Discover the world of prostate stimulation with the pioneer from the XPANDER-SERIES. The X2 is the perfect balance of anal and perineum stimulation. Experience the unique XPANDER effect in solo or couple play.

X3 - the specialist

The XPANDER X3 is an advanced anal toy for advanced users. The special pedestal design with the extra grip structure allows pinpointed stimulation, steered by the body motion. Thanks to its 3-spoke-technology, the user experiences an even more intensive XPANDER effect.

X4 - the expert

With the X4+ rechargeable, entirely new dimensions of prostate stimulation are unveiled, thanks to the strongest Bullet ever - the rechargeable PowerRocket. Its typical XPANDER design is united with the latest vibration technology to create an overwhelming XPANDER effect. The new Bullet - PowerRocket - captivates with its 10 vibration modes and its 3.7 V strong lithium ion battery. It is always rechargeable thanks to an USB charging cable. The charging cable is included in the scope of delivery.
